

HORMEL FOODS CORPORATION

AUSTIN, MINNESOTA

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

To the Stockholders:

The Annual Meeting of Stockholders of Hormel Foods Corporation, a Delaware corporation, will be held in the Richard L. Knowlton Auditorium of the Austin High School, 300 NW 4th Street, Austin, Minnesota, on Tuesday, January 27, 2015, at 8:00 p.m. Central Standard Time. The items of business are:

1. Elect a board of 14 directors for the ensuing year;
2. Ratify the appointment by the Audit Committee of the Board of Directors of Ernst & Young LLP as independent registered public accounting firm for the fiscal year ending October 25, 2015;
3. Advisory vote to approve Named Executive Officer compensation as disclosed in the Company's 2015 annual meeting proxy statement (the "say-on-pay" vote);
4. Vote on a stockholder proposal, if presented at the meeting; and
5. Such other matters as may properly come before the meeting.

The Board of Directors has fixed November 28, 2014, at the close of business, as the record date for the determination of stockholders entitled to notice of, and to vote at, the meeting.

By Order of the Board of Directors

A handwritten signature in cursive script that reads "Brian D. Johnson".

PROXY STATEMENT

HORMEL FOODS CORPORATION
(CUSIP No. 440452100)
1 HORMEL PLACE
AUSTIN, MINNESOTA 55912

The enclosed proxy is solicited by the Board of Directors of Hormel Foods Corporation (“**Company**”) for use at the Annual Meeting of Stockholders to be held on January 27, 2015. This proxy statement and form of proxy, or a Notice of Internet Availability of Proxy Materials, are first being mailed to stockholders on or about December 17, 2014.

GENERAL INFORMATION

Voting Securities - Only stockholders of record at the close of business as of November 28, 2014 are entitled to vote at the meeting. The Company had 263,637,955 shares of common stock outstanding as of November 28, 2014. Each share of stock is entitled to one vote. There is no cumulative voting. The Company has no other class of shares outstanding.

Voting Your Proxy - Whether or not you plan to attend the meeting, we encourage you to grant a proxy to vote your shares. Follow the instructions on your proxy card or electronic delivery notice to cast your vote via the Internet or telephone. If you received a proxy card, you may vote your shares by completing the card with your vote, signature and date, and returning it by mail in the envelope provided.

If you submit a proxy without giving specific voting instructions, your shares will be voted in accordance with the Board of Directors’ recommendations as follows:

“FOR”:

- Election to the Board of the 14 director nominees named in this proxy statement;
- Ratification of the appointment of Ernst & Young LLP as independent registered public accounting firm for the fiscal year ending October 25, 2015; and
- Approval of the non-binding resolution to approve Named Executive Officer compensation as disclosed in this proxy statement (the “say-on-pay” vote);

and “AGAINST”:

- The stockholder proposal set forth in this proxy statement, if presented at the meeting.

The persons appointed as proxies will vote in their discretion on other matters as may properly come before the meeting.

Revoking Your Proxy and Changing Your Vote - You may revoke your proxy or change your vote at any time before it is exercised by submitting a later-dated proxy, voting in person at the meeting or sending a written notice of revocation to the Corporate Secretary.

Expenses - The expenses of soliciting proxies will be paid by the Company. Proxies may be solicited at Company expense personally, or by mail, telephone or electronic communication, by directors, officers and other employees. Such persons will not receive additional compensation. The Company will reimburse banks, brokerage firms and other nominees for their reasonable out-of-pocket expenses incurred in sending proxy materials to beneficial owners. Your cooperation in promptly granting a proxy to vote your shares will help to avoid additional expense.

Quorum - A majority of the outstanding shares will constitute a quorum at the meeting.

Impact of Abstentions and Broker Non-Votes - If a stockholder holds shares in “street name” and does not provide voting instructions to the holder of the account regarding non-discretionary matters, such shares are considered “broker nonvotes.” “Street name” means the shares are held in a stock brokerage account or by a bank, trust or other institution. Broker nonvotes and abstentions are counted for purposes of determining the presence of a quorum for the transaction of business. Shares represented by abstentions are counted as shares represented at the meeting and therefore will have no effect on the election of directors (Item #1) and the advisory vote on executive compensation (Item #3), but will have the effect of a vote against the ratification of Ernst & Young LLP as independent registered public accounting firm (Item #2) and approval of

the stockholder proposal (Item #4). Shares represented by broker nonvotes are not considered entitled to vote and thus are not counted for purposes of determining whether a proposal has been approved. Under current New York Stock Exchange (“NYSE”) rules, uninstructed brokers would have discretionary voting power for ratification of Ernst & Young LLP as independent registered public accounting firm (Item #2). Uninstructed brokers would not have discretionary voting power for the election of directors (Item #1), the advisory vote on executive compensation (Item #3), and the vote on the stockholder proposal (Item #4).

MEETING ADMISSION

The following persons will be admitted to the Annual Meeting of Stockholders to be held on January 27, 2015:

- Stockholders of record at the close of business on November 28, 2014, and their immediate family members;
- Individuals holding written proxies executed by stockholders of record at the close of business on November 28, 2014;
- Stockholders who provide a letter or account statement from their broker, bank or other nominee showing that they owned stock held in the name of the broker, bank or other nominee at the close of business on November 28, 2014, and their immediate family members;
- Stockholders by virtue of stock held in the Company’s Employee Stock Purchase Plan;
- Other individuals with the approval of the Corporate Secretary; and
- One authorized representative of stockholders that are corporations or other entities. Additional authorized representatives may be admitted with the approval of the Corporate Secretary.

If you are not able to attend, we will have video of the meeting available on the Internet after January 28, 2015. To view this video, follow these instructions:

1. Go to the "Newsroom" section of <http://www.hormelfoods.com/>;
2. Click on the “Annual Meeting” featured story; and
3. Locate the video within the Annual Meeting story content and click on the video.

CONDUCT OF MEETING

The Chairman will preside over the Annual Meeting of Stockholders pursuant to the Bylaws and by action of the Board of Directors. The Chairman has broad authority to ensure the orderly conduct of the meeting. This includes discretion to recognize stockholders or proxies who wish to speak and to determine the extent of discussion on each item of business. Rules governing the conduct of the meeting will be distributed at the meeting along with the agenda. The Chairman may also rely on applicable law regarding disorderly conduct to ensure that the meeting is conducted in a manner that is fair to all stockholders.

ITEM 1 – ELECTION OF DIRECTORS

Identifying and Evaluating Nominees for Director - The Governance Committee is responsible for establishing procedures to identify and review the qualifications of all nominees for Board membership. The Committee considers recommendations of director candidates made by directors, senior management, and the Company’s stockholders. The Committee applies the same criteria for consideration of stockholder nominees as it does to nominees proposed by other sources. The Committee may engage an independent search firm to assist the Committee in identifying and evaluating potential director nominees to fill vacancies on the Board. In fiscal 2014, the independent search firm Russell Reynolds Associates, Inc. assisted the Committee in identifying and evaluating potential director nominees.

Stockholders wishing to make a recommendation may do so by contacting the Governance Committee, c/o Brian D. Johnson, Vice President and Corporate Secretary, 1 Hormel Place, Austin, Minnesota 55912. Stockholders should send:

1. Name of the candidate and the candidate’s business and residence addresses;
2. A resume or biographical sketch of the candidate, which includes the candidate’s principal occupation or employment;
3. A document(s) evidencing the number of shares of Company stock currently held by the candidate and the candidate’s willingness to serve as a director if elected; and
4. A signed statement as to the submitting stockholder’s current status as a stockholder, which includes the stockholder’s address and the number of shares of Company stock currently held.

The Committee’s procedures include making a preliminary assessment of each proposed nominee. Such assessment is based upon the resume and biographical information, an indication of the individual’s willingness to serve, and business experience and leadership skills. This information is evaluated against the criteria set forth below and the Company’s

specific needs at that time. Based upon a preliminary assessment of the candidates, those who appear best suited to meet the Company's needs may be invited to participate in a series of interviews, which are used to further evaluate candidates. On the basis of information learned during this process, the Committee determines which nominees to recommend to the Board.

The three director nominees who joined the Board in July 2014 were recommended to the Committee by various sources and evaluated along with other potential director nominees. Gary C. Bhojwani was recommended to the Committee by non-management directors and the Russell Reynolds Associates firm. Sally J. Smith was recommended to the Committee by a non-management director, the chief executive officer and the Russell Reynolds Associates firm. Steven A. White was recommended to the Committee by the Russell Reynolds Associates firm.

Director Qualifications –The Governance Committee determines the selection criteria of director nominees based upon the Company's needs at the time nominees are considered. In evaluating director candidates, the Committee will consider a candidate's:

- Intellect;
- Integrity;
- Broad-based experience at the policy-making level in business, government, education or the public interest;
- Analytical ability;
- Ability to qualify as an independent director;
- Ability and willingness to devote time and energy to effectively carry out all Board responsibilities; and
- Unique qualifications, skills and experience.

The Committee reviews past performance on the Board for directors seeking reelection. The Board's annual self-evaluation process assists the Committee in this review.

The Committee considers the diversity of director candidates and seeks to enhance the overall diversity of the Board. Each candidate's diversity in terms of race, gender, national origin and other personal characteristics is considered. The Committee also assesses each candidate's contribution to the diversity of the Board in a broader sense, including age, education, experience, skills and other qualifications. While the Committee carefully considers diversity when evaluating director candidates, it has not adopted a formal diversity policy.

The Committee recommends director nominees to the Board to submit for election at the next Annual Meeting of Stockholders. The Board selects director nominees based on its assessment and consideration of various factors. These factors include the current Board profile, the long-term interests of stockholders, the needs of the Company, and the goal of creating an appropriate balance of knowledge, experience and diversity on the Board.

Our Nominees for Director – Each of our director nominees is well qualified under the criteria described above. As employees of the Company, Mr. Ettinger and Ms. Feragen do not qualify as independent directors. Each director nominee brings a variety of qualifications, skills, attributes and experience to the Board of Directors.

A common trait among our director nominees is executive leadership experience with a large company or organization. Such experience brings a variety of benefits, including an understanding of business management, various business functions and strategic planning. Other advantages of an executive leadership background include experience with policy making, risk management and corporate governance matters.

Another common characteristic of our director nominees is each has prior service on our Board, although that service is limited for Mr. Bhojwani, Ms. Smith and Mr. White, the director nominees who joined the Board in July 2014. Each director nominee has a demonstrated record of regular attendance, advance preparation and active participation in Board and Board committee meetings. Through prior service on the Board committees, our director nominees have demonstrated and further developed expertise relating to the duties assigned to the Board committees.

The biographical information below identifies and highlights additional qualifications, skills, attributes and experience each director nominee brings to the Board.

The Board of Directors recommends a vote FOR each of the 14 director nominees listed below. The persons named as proxies will vote FOR the election of these 14 nominees to hold office as directors until the next Annual Meeting of Stockholders and until their successors are elected and qualify, unless stockholders specify otherwise. If any of such nominees become unavailable for any reason, it is intended that the proxies will vote for the election of such substitute persons as may be designated by the Board of Directors. Directors are elected by a plurality of the votes cast. The 14 candidates receiving the highest number of votes will be elected.

Mr. White brings significant expertise in digital commerce and consumer product marketing to the Board, as well as ongoing experience as the active President of a large business.

No family relationship exists between any of the director nominees or executive officers of the Company.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board of Directors has adopted Corporate Governance Guidelines which include the following:

- At all times a substantial majority of the Board will be independent, as that term is defined in relevant law and the NYSE listing standards;

- Directors who (1) retire from or change their principal employment, (2) reach retirement age of 72, (3) resign or are removed from, or fail to be re-elected to, the board of directors of any other public company, or (4) take action that creates a conflict of interest with the Company, must submit a letter of resignation from the Board. The Board may accept or reject a letter of resignation. It is the Board's general policy that directors will not stand for reelection after reaching age 72;
- The Board and Board committees will conduct annual self-evaluations;
- Directors participate in an annual strategic planning retreat, which provides directors a detailed overview of the Company's strategic business plans and an opportunity to access senior management of the Company;
- All independent directors will typically meet in executive session at the end of every regular Board meeting but in all circumstances at least quarterly;
- The Compensation Committee will evaluate the Chief Executive Officer's performance annually. This evaluation is based in part on a self-evaluation by the Chief Executive Officer ("CEO") which is reviewed by all the nonemployee directors. The annual evaluation will take into account the CEO's performance measured against established goals. After the process has been completed, the Compensation Committee will set the CEO's compensation and obtain the Board's ratification of such compensation;
- Directors will have full access to officers and employees of the Company; and
- The Board and each committee have the power to hire independent legal, financial or other advisers, without consulting or obtaining the approval of any officer of the Company.

The Company's Corporate Governance Guidelines may be found on the Company's Web site at www.hormelfoods.com under "Investors - Corporate Governance."

Board Leadership Structure

The Board takes a flexible approach to the issue of whether the offices of Chairman and CEO should be separate or combined. This approach allows the Board to regularly evaluate whether it is in the best interests of the Company for the CEO or another director to hold the position of Chairman.

Mr. Ettinger has served as both Chairman and CEO of the Company since November 2006. The Board continues to believe there are important advantages to Mr. Ettinger serving in both roles at this time. Mr. Ettinger is the director most familiar with our Company's business and industry and best situated to propose the Board's agendas and lead Board discussions on important matters. Mr. Ettinger provides a strong link between management and the Board, which promotes clear communication and enhances strategic planning and implementation of corporate strategies. Another advantage is the clarity of leadership provided by one person representing the Company to employees, stockholders and other stakeholders.

When the Chairman is not an independent director, the Board believes it may be useful and appropriate to designate a "Lead Director." The Governance Committee annually reviews use of the Lead Director position and duties of a Lead Director. The Lead Director position is held by an independent director elected by the Board of Directors. The Board's policy is that a director's term as Lead Director should generally be limited to five consecutive years.

John L. Morrison has served as the Lead Director since November 2011. The duties of the Lead Director include the following:

- Serve as a liaison between the Chairman and the non-management directors;
- Serve as a liaison among the non-management directors;
- Provide input to the Chairman on the preparation of Board meeting agendas, including content, sequence, and time allocations;
- Have the authority to call meetings of the non-management directors, with advance notice of such meetings to be given to the Chairman;
- Preside at meetings of the Board in the absence of the Chairman;
- Preside at executive sessions of the non-management or independent directors;
- In conjunction with the Governance Committee, take an active role in the Board's annual self-evaluation; and
- In conjunction with the Compensation Committee, take an active role in the annual evaluation of the CEO.

The independent directors who chair the Company's Audit, Compensation, Governance and Contingency Committees also provide leadership to the Board in their assigned areas of responsibility. The Board believes the substantial majority of independent directors on the Board, use of a Lead Director, independent Committee chairs and executive sessions of the independent directors safeguard the independent governance of the Board.

Code of Ethical Business Conduct

The Company has adopted a Code of Ethical Business Conduct that covers its directors, officers and employees. This Code of Ethical Business Conduct may be found on the Company's Web site at www.hormelfoods.com under "Investors - Corporate Governance."

Stock Ownership Guidelines

The Company's officers and directors are subject to stock ownership guidelines. Officers need to hold shares of Company stock with a value equal to their five-year average base salary times a multiple of 1.5 to 5, depending on position. Directors need to hold shares of Company stock with a value equal to their five-year average annual retainer times a multiple of 5. This multiple was changed from 4 to 5 effective November 24, 2014. For both officers and directors, the required stock ownership value is divided by the five-year average Company stock price, based on fiscal year end prices, to calculate the number of shares to be held.

The value of shares individually owned, held in Company benefit plans, and deferred in the Company's deferred compensation plans are counted toward the guidelines. Individual ownership of shares is determined under Section 16 of the Securities Exchange Act of 1934, as amended ("**Exchange Act**"). Stock options and restricted shares are not counted toward the guidelines.

Officers and directors have approximately five years from their initial election to comply with the guidelines. Officers promoted to a level requiring higher stock ownership under the guidelines have five years to achieve compliance. All officers and directors who are subject to the guidelines are in compliance with the guidelines.

The Company has adopted a pledging policy which prohibits officers and directors from holding Company stock in a margin account or pledging Company stock as collateral for a loan.

The Company has also adopted a hedging policy which prohibits employees, officers and directors from purchasing any financial instruments (including without limitation prepaid variable forward contracts, equity swaps, collars, and exchange funds) that are designed to hedge or offset any decrease in the market value of Company securities held directly or indirectly by the employee, officer or director.

Board Independence

The Company's Corporate Governance Guidelines require that a substantial majority of the Company's directors be independent. The NYSE listing standards require that a majority of the Company's directors be independent and that the Audit, Compensation and Governance Committees be comprised entirely of independent directors. The Board of Directors has adopted standards to assist it in making the annual determination of each director's independence status. These Director Independence Standards are consistent with the NYSE listing standards. The Director Independence Standards are posted on the Company's Web site at www.hormelfoods.com under "Investors - Corporate Governance." A director will be considered "independent" if he or she meets the requirements of the Director Independence Standards and the independence criteria in the NYSE listing standards.

The Board of Directors has affirmatively determined that the following directors have no direct or indirect material relationship with the Company and satisfy the requirements to be considered independent:

Gary C. Bhojwani	John L. Morrison	Dakota A. Pippins
Terrell K. Crews	Elsa A. Murano	Christopher J. Policinski
Glenn S. Forbes	Robert C. Nakasone	Sally J. Smith
Stephen M. Lacy	Susan K. Nestegard	Steven A. White
Susan I. Marvin (term expired January 28, 2014)		

The Board of Directors also has determined that each of the Company's Audit, Compensation, Governance and Contingency Committees is composed solely of independent directors. In making the independence determinations, the Board reviewed all of the directors' relationships with the Company. This review is based primarily on a review of the responses of the directors to questions regarding employment, business, family, compensation and other relationships with the Company and its management. In making the independence determination for Mr. Lacy, Chairman of the Board, President & CEO of Meredith Corporation, the Board considered the relationship arising out of the transactions in the ordinary course of business between the Company, including transactions through its advertising agency, and Meredith Corporation, a supplier of the Company. The Board determined that this relationship was not material and did not impair

Mr. Lacy's independence. In making the independence determination for Mr. Policinski, President & CEO of Land O'Lakes, Inc., the Board considered the relationship arising out of the transactions in the ordinary course of business between the Company and Land O'Lakes, Inc., a supplier of the Company. The Board determined that this relationship was not material and did not impair Mr. Policinski's independence. In making the independence determination for Mr. White, President, West Division of ComCast Corporation, the Board considered the relationship arising out of the transactions in the ordinary course of business between the Company and ComCast Corporation, a service provider to the Company. The Board determined that this relationship was not material and did not impair Mr. White's independence. The dollar amount of the Company's transactions with Meredith Corporation, Land O'Lakes, Inc. and ComCast Corporation are below the thresholds for commercial transactions under the independence criteria in the NYSE listing standards.

Board of Director and Committee Meetings

Board of Directors and Committees - The Board of Directors conducts its business through meetings of the Board and its committees. The Lead Director presides at executive sessions of the non-management or independent directors. The Board held eight meetings during fiscal 2014. Each director attended at least 75% of the total meetings during the fiscal year of the Board and Board committees on which he or she served.

The Board of Directors has established the following Board committees: Audit, Compensation, Governance, and Contingency. The following table shows membership and meeting information for each committee for fiscal 2014.

Total Meetings in Fiscal 2014	11	5	6	0

* Committee Chair

- (1) Susan I. Marvin served on the Compensation (as Chair), Governance and Contingency Committees until her term expired on January 28, 2014. Christopher J. Policinski joined the Compensation Committee on that date and attended the three Compensation Committee meetings held after that date in fiscal 2014.
- (2) Gary C. Bhojwani, Sally J. Smith and Steven A. White joined the Board at its July 28, 2014 meeting and were appointed to Board committees at that time. Ms. Smith attended the two Audit Committee meetings held after that date in fiscal 2014. Mr. Bhojwani attended the one Compensation Committee meeting held after that date in fiscal 2014. Mr. Bhojwani and Mr. White attended the one Governance Committee meeting held after that date in fiscal 2014.
- (3) Robert C. Nakasone replaced Dakota A. Pippins as Governance Committee Chair effective at the end of the November 24, 2014 Board meeting.

Each of the Audit, Compensation and Governance Committees has adopted and operates under a written charter. These charters may be found on the Company's Web site at www.hormelfoods.com under "Investors - Corporate Governance."

Audit Committee - Each member of the Audit Committee is financially literate as determined by the Board of Directors. The Board also determined that Terrell K. Crews, Stephen M. Lacy and Sally J. Smith each is an audit committee financial expert, as defined by the rules of the Securities and Exchange Commission ("SEC"). The duties of the Audit Committee include the following:

- Select and evaluate the performance of the independent registered public accounting firm;

- Discuss with the internal auditors and independent registered public accounting firm the overall scope and plans for their respective audits;
- Ensure that the independent registered public accounting firm is accountable to the Committee and that the firm has no relationship with management or the Company that would impair their independence;
- Review and discuss with management and the external auditors the quarterly and annual financial statements of the Company;
- Establish procedures for the handling of complaints received by the Company regarding accounting, internal controls or auditing matters, including the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters;
- Provide an open avenue of communication between the internal auditors, the external auditors, Company management and the Board;
- Understand the Company's key areas of risk and assess the steps management takes to manage such risk; and
- Oversee the Company's Code of Ethical Business Conduct, including assessment of the steps management takes to assure the Company's compliance with all applicable laws and regulations and corporate policies.

Compensation Committee - The duties of the Compensation Committee include the following:

- Establish compensation arrangements for all officers of the Company;
- Engage a compensation consultant to review the Company's compensation programs;
- Make recommendations to the Board regarding incentive compensation and equity-based compensation plans, and administer such plans;
- Make recommendations to the Board regarding compensation to be paid to the Company's directors; and
- Establish investment policies for the Company's defined benefit pension plans, and periodically review investments for consistency with those policies.

Governance Committee - The duties of the Governance Committee include the following:

- Establish criteria for new directors and evaluate potential candidates;
- Make recommendations to the Board regarding the composition of Board committees;
- Make recommendations to the Board regarding the Lead Director position;
- Review the Company's executive succession plans;
- Periodically assess the Company's Corporate Governance Guidelines, as well as the Company's adherence to them;
- Evaluate objectives and policies regarding the Company's management of its human resources; and
- Oversee the annual evaluation of the Board.

Contingency Committee - The Contingency Committee considers any matters referred to it by the Board. Such matters would require the deliberation and decision of disinterested and independent directors.

Board Role in Risk Oversight

The Board of Directors takes an active role in risk oversight. The Board administers its risk oversight function through the full Board and each of its committees. Management of the Company, which is responsible for day-to-day risk management, maintains an enterprise risk management (“**ERM**”) process. The ERM process is designed to identify and assess the Company's risks globally, and develop steps to mitigate and manage risks. The Board receives regular reports on the ERM process.

The Board's oversight of risk includes engaging in an annual strategic planning retreat with senior management, approving annual operating plans and strategic plans, and approving significant transactions. In addition, the Board receives regular reports on the Company's overall business, specific business units and financial results, as well as specific presentations on topics relating to risks and risk management.

The Audit Committee assists the Board with its risk oversight in a variety of areas, including financial reporting, internal controls and legal and regulatory compliance. The Audit Committee has oversight of the Company's internal audit function and the Company's Code of Ethical Business Conduct. The Audit Committee also appoints the independent

registered public accounting firm and approves the services it provides to the Company. The Compensation Committee oversees risk in connection with compensation programs, including incentive compensation plans and equity-based plans. The Governance Committee oversees risk in connection with corporate governance practices. All of these committees make regular reports of their activities to the full Board.

Policy Regarding Attendance at Annual Meetings

The Company encourages, but does not require, its Board members to attend the Annual Meeting of Stockholders. Last year eleven directors of the Company attended the Annual Meeting of Stockholders.

Board Communication

Interested parties may communicate with the Board of Directors by sending a letter directed to the Board of Directors, nonemployee directors or specified individual directors, addressed to: Brian D. Johnson, Vice President and Corporate Secretary, 1 Hormel Place, Austin, Minnesota 55912. All communications, whether signed or anonymous, will be directed to the Lead Director or the Chair of one of the committees based on the subject matter of the communication, or to the nonemployee directors or the specified directors, if so directed.

COMPENSATION OF DIRECTORS

In fiscal 2014, the Company provided the following elements of compensation to nonemployee directors:

- Annual retainer of \$70,000;
- Additional retainer of \$25,000 per year for Lead Director;
- Additional retainer of \$15,000 per year for chair of the Audit and Compensation Committees;
- Additional retainer of \$10,000 per year for chair of the Governance Committee;
- Meeting fee for each committee meeting of \$1,000 for attendance in person or \$500 for attendance by telephone (no meeting fees are paid for attendance at Board meetings); and
- An award of restricted shares of Company common stock having a fixed value of \$160,000 on February 1 based on the NYSE closing price for the stock at the end of that day, subject to the restricted period described below. The retainers are paid half on February 1 and half on August 1. These payments and the equity award are made on the first business day after February 1 and August 1 if those dates fall on a non-business day.

The NYSE closing price of the Company's stock was \$43.46 on February 3, 2014. This price resulted in an award of 3,681.546 restricted shares of Company common stock to each nonemployee director on that date.

On July 28, 2014, the Compensation Committee revised the Company's nonemployee director compensation policy to make the following changes:

- The annual award of restricted shares is rounded to the nearest whole share number;
- The restricted period for future awards of restricted shares will expire upon the earlier of the day before the date of the Company's next annual stockholders meeting or the first anniversary of the award;
- Newly elected nonemployee directors shall receive a prorated annual retainer and award of restricted shares based on the number of regular Board meetings scheduled from the time the director joins the Board to the next stockholders meeting out of the total number of regular Board meetings between annual stockholders meetings (this policy change reflects the past practice of the Committee); and
- The restricted period for restricted shares awarded to newly elected nonemployee directors will expire upon the earlier of the day before the date of the Company's next annual stockholders meeting or the following February 1 (the changes to restricted periods better match the restricted periods to the director's term on the Board).

On July 28, 2014, each of the three newly elected directors, Gary C. Bhojwani, Sally J. Smith and Steven A. White, received an award of restricted shares of Company common stock having a fixed value of \$106,667. The NYSE closing price of the Company's stock was \$47.36 on July 28, 2014. This price resulted in an award of 2,252 restricted shares of Company common stock (after rounding to the nearest whole number) to each of the three new directors on that date.

The awards of restricted shares on February 3, 2014 and July 28, 2014 were made pursuant to the terms of the stockholder-approved 2009 Long-Term Incentive Plan. Each nonemployee director and the Company entered into a Restricted Stock Award Agreement consistent with the 2009 Long-Term Incentive Plan. Restricted shares granted in fiscal 2011 through February 3, 2014 are subject to a one-year restricted period. Restricted shares granted in fiscal 2010 and prior years have a five-year restricted period, with immediate vesting upon death, disability, or retirement from the Board, subject to a minimum one-year restricted period. The restricted period for the restricted shares awarded to each of the three new

directors on July 28, 2014 ends on the earlier of the day before the date of the Company's next annual stockholders meeting or February 1, 2015. Directors receive declared dividends on, and are entitled to vote, the restricted shares prior to vesting.

Nonemployee directors may defer all or a portion of retainer and meeting fees under the Company's Nonemployee Director Deferred Stock Plan. Deferred fees times 105% are credited as stock units under the plan. The stock units have the same value as Company common stock and receive dividend equivalents. Stock units become payable in shares of Company common stock following termination of service as a director.

Directors who are employees of the Company receive no additional compensation for service on the Board pursuant to Compensation Committee policy.

The Compensation Committee reviews the compensation to be paid to the Company's nonemployee directors. The Committee uses a compensation consultant, Pearl Meyer & Partners, to provide advice regarding nonemployee director compensation. The consultant analyzes each element of director compensation and total director compensation for the same peer group of companies which is used to evaluate executive compensation. See "How Annual Compensation Decisions are Made" on page 23 for a list of these peer companies. The Committee reviews the consultant's report of competitive director compensation and determines whether to recommend to the Board a change in the Company's nonemployee director compensation. If such a change is recommended by the Committee, the full Board would then determine whether to ratify the change.

The Compensation Committee's current policy is to review nonemployee director compensation every other year. After this process was completed in late 2014, no changes were made to the Company's nonemployee director compensation policy.

The fiscal 2014 compensation of our nonemployee directors is shown in the following table.

Steven A. White	-	2,252

- (4) Consists primarily of dividend equivalents paid on stock units under the Company's Nonemployee Director Deferred Stock Plan. Also includes matching gifts to educational institutions made by the Company on behalf of directors as follows: Mr. Lacy - \$10,000; and Mr. Nakasone - \$10,000. This matching gift program is available to all full-time and retired employees and directors of the Company.

AUDIT COMMITTEE REPORT AND INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FEES

Audit Committee Report

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. The Committee has the sole authority to appoint or replace the Company's independent registered public accounting firm. The independent registered public accounting firm reports directly to the Audit Committee.

The Audit Committee has reviewed and discussed the Company's fiscal year 2014 audited financial statements with management and with Ernst & Young LLP ("**Ernst & Young**"), the Company's independent registered public accounting firm. The Audit Committee also has discussed with Ernst & Young the matters required to be discussed by the applicable Public Company Accounting Oversight Board standards.

The Audit Committee has received from Ernst & Young the written disclosures and the letter required by the Public Company Accounting Oversight Board in Ethics and Independence Rule 3526, Communication with Audit Committees Concerning Independence, regarding Ernst & Young's communications with the Audit Committee concerning independence, and has discussed with Ernst & Young its independence from the Company.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the fiscal year 2014 audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended October 26, 2014, for filing with the SEC.

THE AUDIT COMMITTEE

Terrell K. Crews, <i>Chair</i>	Susan K. Nestegard
Stephen M. Lacy	Christopher J. Policinski
Elsa A. Murano	Sally J. Smith

Independent Registered Public Accounting Firm Fees

The following table shows aggregate fees billed to the Company for fiscal years ended October 26, 2014 and October 27, 2013 by Ernst & Young, our independent registered public accounting firm.

	<u>Fiscal 2014</u>	<u>Fiscal 2013</u>
Audit fees	\$1,803,300	\$1,528,679
Audit-related fees	\$144,500	\$129,000
Tax fees	\$0	\$0
All other fees	\$0	\$0

Audit Fees - Audit fees are for audit of the Company's financial statements for fiscal years 2014 and 2013. Audit fees also include reviews of the financial statements included in the Company's quarterly reports on Form 10-Q.

Audit-Related Fees - Audit-related fees are for services related to the performance of the audit. These services consist of benefit plan audits.

Audit Committee Preapproval Policies and Procedures

The Audit Committee has adopted policies and procedures requiring preapproval of audit and nonaudit services provided to the Company by the independent registered public accounting firm. The Committee preapproved all of the services performed by Ernst & Young during fiscal years 2014 and 2013. The Audit Committee approves all audit and nonaudit fees in advance at each quarterly meeting.

ITEM 2 – RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors appointed Ernst & Young as the independent registered public accounting firm to audit the consolidated financial statements of the Company and its subsidiaries for the fiscal year ending October 25, 2015. Ernst & Young has served as the Company’s public auditors since 1931.

At the Annual Meeting, stockholders will be asked to ratify the appointment of Ernst & Young as the Company’s independent registered public accounting firm for the fiscal year ending October 25, 2015. Stockholder approval of this appointment is not required. The Board is requesting ratification in order to obtain the views of the Company’s stockholders. If the appointment is not ratified, the Audit Committee will reconsider its selection. Representatives of Ernst & Young are expected to be present at the meeting, will be afforded an opportunity to make a statement, and will be available to respond to appropriate questions.

Ratification of this appointment will require the affirmative vote of the majority of the shares of common stock represented in person or by proxy at the meeting. **The Board of Directors recommends a vote FOR ratification of the appointment of Ernst & Young LLP. Properly dated and signed proxies will be so voted unless stockholders specify otherwise.**

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS

Information as to the persons or groups known by the Company to be beneficial owners of more than five percent of the Company’s common stock, as of November 28, 2014, is shown below:

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Overview

The Compensation Committee of the Board of Directors establishes and administers the compensation and benefit programs for executive officers. The Compensation Committee consists exclusively of nonemployee, independent directors. The Committee uses a compensation consultant, Pearl Meyer & Partners, to provide compensation advice independent of Company executives. The Committee determined the consultant's work did not raise any conflict of interest. Pearl Meyer & Partners does not provide any additional consulting services to the Company. The Committee and their consultant work with senior management to implement and monitor the programs the Committee approves.

The Company's executive compensation programs are designed to achieve two primary goals:

- Attract and retain highly qualified executive officers; and
- Incent the behavior of executive officers to create stockholder value.

These two goals are achieved by providing a competitive total compensation program that offers competitive "fixed pay" (i.e., base salary and benefits) along with "variable, performance-based pay" designed to reward performance.

Total compensation for executive officers is leveraged toward incentive compensation rather than base salary. Incentive compensation is comprised of both short-term and long-term incentives. An appropriate balance of short-term and long-term incentives assures executive officers are properly balancing the need for consistent annual performance with the need for improved performance over a multi-year timeline. This compensation balance provides both downside risk and upside opportunity for reward based on Company performance.

The Company's target pay positioning reflects the strong pay-for-performance philosophy. The Compensation Committee considers several factors in its review and approval of overall target compensation, including individual experience and performance, internal parity, competitive pay levels, and competitive performance. In addition to reviewing target pay levels, the Committee also considers the range of potential payouts under the various plans as well as the performance/payout time horizon. As indicated in the table below, target pay levels and incentive plan leverage are designed to create alignment between actual relative pay and relative performance. The Committee believes this strategy has allowed the Company to attract and retain a skilled, experienced management team, including the named executive officers ("NEOs") listed in the Summary Compensation Table on page 25, that has delivered strong, consistent financial performance and returns to stockholders.

Pay Component	Performance Factors	Performance Time Horizon	Performance Leverage	% of Target Total Direct Compensation for NEOs
Base Salary	Individual performance	Annual	Low	10 – 25%
Operators' Shares	Company EPS	Annual	Low/Moderate	5 - 10%
Annual Incentive Plan	Company and business unit operating profit, asset management and sales	Annual	Moderate/High	15 – 25%
Long-Term Incentive	Relative total shareholder return performance	3-year performance period	Moderate/High	15 – 30%
Stock Options	Stock price growth	4-year vesting; 10-year term	High	25 – 40%

At the 2013 Annual Meeting of Stockholders, the Company provided stockholders an advisory vote on executive compensation. The stockholders approved, on an advisory basis, the compensation of the Company's NEOs, as disclosed pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis, compensation tables and narrative discussion set forth in the Company's 2013 annual meeting proxy statement. The vote was 205,307,993 shares "For" (94.82% of the shares voted), 4,299,917 shares "Against" (1.99% of the shares voted), and 6,904,180 shares "Abstain" (3.19% of the shares voted).

The Committee took into account the result of the stockholder vote in determining executive compensation policies and decisions since that vote. The Committee viewed the vote as an expression of the stockholders' general satisfaction with the Company's current executive compensation programs. While the Committee considered this stockholder satisfaction in determining to continue the Company's executive compensation programs for fiscal 2014 and 2015, decisions regarding incremental changes in individual compensation were made in consideration of the factors described below.

Consistent with the stockholders' preference expressed in voting at the 2011 Annual Meeting of Stockholders, the Company's Board of Directors determined that an advisory vote on the compensation of the Company's NEOs will be

conducted every two years. Following the stockholder advisory vote at this meeting (See item 3 on page 32), the next such vote will take place at the 2017 Annual Meeting of Stockholders.

Executive Compensation Programs

Executive officer compensation consists of six parts:

- Base Salary;
- Operators' Share Incentive Compensation Plan;
- Annual Incentive Plan;
- Long-Term Incentives;
- Stock Incentives; and
- Benefits and Perquisites.

Base Salary

Base salary levels are the fixed portion of the executive compensation package. Base salary levels typically represent less than 40% of an executive officer's total direct compensation. Salary levels are based on a combination of factors. These factors include competitive pay levels, the executive's experience and tenure, the executive's responsibilities, the executive's performance and the Company's overall annual budget for merit increases. In keeping with the Company's desire for a performance-oriented pay program, base salaries are generally below competitive median levels.

Operators' Share Incentive Compensation Plan

Why Operators' Shares?

The Hormel Foods Corporation Operators' Share Incentive Compensation Plan ("**Operators' Share Plan**") is a short-term incentive. The basic concept of the Operators' Share Plan structure has been in place since 1932.

This annual cash incentive plan rewards employee participants for Company financial performance, as measured by earnings per share ("**EPS**"). The concept behind the Operators' Share Plan is that as the EPS of the Company rises over time, so too the executive's compensation rises. Improved EPS, over time, results in an increase in the stock price, which improves stockholder value.

How the Plan Works

Upon initial eligibility for plan participation, an employee receives a grant of Operators' Shares. Operators' Shares are phantom units, not actual shares of stock or the right to receive the value of stock. Operators' Shares represent the right to receive cash compensation under the Operators' Share Plan.

Grants of Operators' Shares to executive officers are determined by the Compensation Committee. Operators' Shares are awarded at a level that results in competitive total annual cash compensation relative to market pay levels, taking into consideration length of service and performance.

During the year, participants receive "dividend equivalents." These are cash payments equal to declared dividends multiplied by the number of Operators' Shares held.

Following the end of each fiscal year, the Company calculates each participant's Operators' Share Plan award. This is done by multiplying the Company's annual EPS by the number of Operators' Shares identified for that participant. This award is decreased by the total amount of dividend equivalents paid during the year to determine the final Operators' Shares payment.

Annual Incentive Plan

Why AIP?

The Hormel Foods Corporation Annual Incentive Plan ("**AIP**") is a short-term incentive. The AIP is an annual cash incentive program that rewards participants for the Company's financial performance. The AIP rewards achievement of profit objectives and the wise use of assets. The Committee believes the AIP further aligns performance pay to key drivers of the Company's financial success.

How the Program Works

Payout under the AIP is based on the achievement of financial goals in relation to the Company's annual operating plan. The Chief Executive Officer's goal is based on earnings before interest and taxes ("**EBIT**") for the consolidated Company. Participants who are heads of one of the Company's segments (Grocery Products, Refrigerated Foods, Jennie-O Turkey

Store, Specialty Foods, and International & Other) will have their goal weighted, with one-half based on segment profit for their particular segment and one-half based on EBIT for the consolidated Company. Participants who are heads of one of the business units within a segment (e.g., Meat Products, Foodservice, etc.) will have their goal weighted, with one-quarter based on profit for their particular business unit, one-quarter based on segment profit for their segment, and one-half based on EBIT for the consolidated Company. All other participants will have their goal based on EBIT for the consolidated Company.

Performance goals for EBIT, segment profit, and business unit profit are based on the annual operating plan approved by the Board of Directors. The Committee has authority to modify the performance goal at the beginning of the year to provide for adjustments for certain non-recurring items, and to exercise negative discretion when measuring performance after year-end. For fiscal 2014, the Committee defined the EBIT goal at the beginning of the year to exclude unusual events that negatively affected the Company’s EBIT and retained its negative discretion to adjust the payout downward. As a result, the calculation of fiscal 2014 Total Company EBIT, Specialty Foods segment profit and Century Foods International business unit profit excluded the results attributed to the CytoSport Holdings, Inc. (“**CytoSport**”) business because that business was not included in the performance goals established at the beginning of the fiscal year, as the Company did not acquire CytoSport until part way through the fiscal year.

Target award amounts under the AIP will vary based on the participant’s position within the Company, and are determined by the Compensation Committee of the Board of Directors. Performance levels at threshold, target, and maximum, and their associated payout levels are established at the beginning of the fiscal year. Payouts are a percentage of target as follows:

	EBIT/Segment/Business Unit Profit As a % of Plan	Payout as a % of Target
Maximum	> 120%	200%
Target	120%	200%
Threshold	100%	100%
	80%	50%
	< 80%	0%

Awards are interpolated for EBIT, segment and business unit profit between the discrete percentages.

The AIP modifier is a secondary measure applied to the AIP award.

- For all participants, excluding executives in Consumer Products Sales (“**CPS**”) positions, the modifier is based on asset management. Asset management is calculated as the average measured assets employed (including accounts receivable, inventories, prepaid expenses, intangible assets, property, plant & equipment, investments, and other assets) as a percentage of the annual operating plan approved by the Board of Directors. The asset management modifier may increase or decrease the payout based on EBIT/segment/business unit profit, but cannot zero it out. Asset management within 95% to 105% of the plan will have no impact on the payout. Asset management below 95% of the plan will increase the payout by 20%. Asset management above 105% of the plan will decrease the payout by 20%.
- For executives in CPS positions, the modifier is based on the achievement of sales goals. Performance is measured by sales as a percentage of the annual operating plan. The CPS sales modifier may increase or decrease the payout based on EBIT/segment/business unit profit, but cannot zero it out. If sales goals are achieved, there is no impact on the payout. Performance at or above 115% of the plan will increase the payout by 20%. Performance at or below 90% of the plan will decrease the payout by 20%. For performance between 90% and 115% of the plan, the modifier is interpolated between the 20% increase and the 20% decrease.
- The Committee has authority to modify the performance goal at the beginning of the year to provide for adjustments for certain non-recurring items, and to exercise negative discretion when measuring performance after year-end. Similar to the definition of fiscal 2014 EBIT, the measurement of asset management excluded the CytoSport business because that business was not included in the performance goals established at the beginning of the fiscal year, as the Company did not acquire CytoSport until part way through the fiscal year.

The maximum payout under the AIP is 200% of the target incentive. The Compensation Committee retains discretion to reduce the amount of any award payout.

Upon initial eligibility for AIP participation, an employee receives a target annual incentive. Following the end of each fiscal year, the Company calculates each participant’s AIP award. The calculation is as follows:

1. The EBIT/segment/business unit profit payout as a percentage of target is calculated first. This is done by utilizing the payout table described above.

2. The AIP modifier portion of the award is then calculated. This is done utilizing the AIP modifier procedure described above.
3. The EBIT/segment/business unit profit payout as a percentage of target is multiplied by the AIP modifier resulting in the AIP payout percentage.
4. The target incentive is multiplied by the AIP payout percentage resulting in the AIP award.

For example - CEO AIP award calculation for fiscal 2014:

- Mr. Ettinger's target incentive is \$1,400,000
- Total Company EBIT payout based on performance
x Total Company asset management modifier performance
 = AIP payout percentage of 105.0%
- Mr. Ettinger's AIP award is:
 \$1,400,000 target incentive x 105.0% = \$1,470,000

The fiscal 2014 AIP payout percentage varied for the NEOs, based upon the total Company results or their business unit results, as follows:

	Target Incentive	Basis for AIP Incentive Payment	AIP Payout % Including Asset Management Modifier
Jeffrey Ettinger	\$1,400,000	Total Company	105.0%
Steven Binder	\$550,000	1/4 Refrigerated Foods	200.0%
		1/4 Grocery Products	55.0%
		1/2 Total Company	105.0%
		Weighted Total	116.3%
Jody Feragen	\$475,000	Total Company	105.0%
Thomas Day	\$290,000	1/2 Refrigerated	200.0%
		1/2 Total Company	105.0%
		Weighted Total	152.5%
Glenn Leitch	\$325,000	1/2 Jennie-O Turkey Store	97.5%
		1/2 Total Company	105.0%
		Weighted Total	101.3%

Total Company and the Refrigerated Foods segment surpassed their EBIT/segment profit goal for fiscal 2014. The Jennie-O Turkey Store and Grocery Products segments did not achieve their segment profit goal for fiscal 2014. Total Company, Refrigerated Foods and Jennie-O Turkey Store met their asset management goals and Grocery Products did not achieve its sales volume goal. The resulting payout percentage for these four parts of the business represent this performance.

The Total Company EBIT goal for 2014 was \$921,720,237. The Total Company's actual EBIT performance, excluding effects of the CytoSport acquisition, was \$932,925,477, resulting in 101% achievement of the EBIT goal. The Total Company asset goal for fiscal year 2014 was \$3,986,314,806. The Total Company's actual average measured assets employed, excluding measured assets attributed to CytoSport, were \$4,029,538,377, resulting in 101% achievement of goal. Since the actual achievement fell within the 95% to 105% range, no payout modifier was applied.

SEC rules provide that the Company does not have to disclose confidential financial information if doing so would result in competitive harm to the Company. The quantitative factors identified below are all maintained by the Company as confidential and proprietary information. The Compensation Committee believes disclosure of such information would result in competitive harm to the Company. Such harm would be caused by factors including the following:

- Segment profit targets and business unit profit targets and results are competitively sensitive information that the Company does not publicly disclose;
- Segment and business unit asset management targets and results are competitively sensitive information that the Company does not publicly disclose; and
- Business unit sales targets and results are competitively sensitive information that the Company does not publicly disclose.

The target-level goals can be characterized as "strong performance," meaning that based on historical performance, although attainment of this performance level is uncertain, it can be reasonably anticipated that target performance may be achieved, while the threshold goals are more likely to be achieved and the maximum goals represent more aggressive levels of performance.

Long-Term Incentives

Why Long-Term Incentives?

The Hormel Foods Corporation 2009 Long-Term Incentive Plan (“LTIP”) is administered by the Compensation Committee and is utilized for the Company’s long-term compensation programs. The LTIP allows the Compensation Committee to grant Company executive officers different types of performance awards conditioned on achievement of objective performance goals. LTIP performance awards are designed to provide a small group of key employees selected by the Committee with an incentive to maximize stockholder value. LTIP performance awards granted in fiscal 2014 provide an additional incentive opportunity based on the Company’s long-term “Total Shareholder Return” performance compared to its peers. The Committee feels that the relative performance nature of these LTIP awards balances the absolute performance of the stock options, and recognizes the cyclical nature of the business. In other words, if the Company underperforms versus peers in a very strong market, the options may be valuable, but the LTIP awards will be worthless. Conversely, if the Company outperforms its peers in a very weak market, the options may be worthless, but the LTIP awards would generate a reward.

How the LTIP Awards Work

“Total Shareholder Return” measures the increase in stock price, assuming reinvested dividends. Each participant, including the NEOs, is given a target dollar award opportunity for the three-year performance period. In selecting participants, and the amount of cash incentive which can be earned by each participant, the Compensation Committee considers various factors. These factors include the nature of the services rendered by the employee, his or her present and potential contributions to the success of the Company, and the LTIP award as a component of competitive total compensation based on market data.

LTIP award opportunities are typically granted annually. This was the case in July 2014, when LTIP performance awards were granted. Since the performance cycle for each award is three years, participants can have up to three annual overlapping three-year LTIPs active at any time. If, during any three year performance cycle, a subsequent target award is increased or decreased due to a promotion or other job change, that increase or decrease will be applied to any existing target awards as of the subsequent award’s effective date.

If the Company’s actual Total Shareholder Return for the three-year period is at the 50th percentile of the peer group, then participants earn the target award. If the Company’s actual Total Shareholder Return ranks highest among the peers, then the award payout equals three times the target opportunity. No award is paid unless actual Total Shareholder Return is above the 25th percentile of the peers. Awards will be interpolated for Company performance between the discrete points. The Compensation Committee retains discretion to reduce the amount of any award payout. The peer group consists of 24 publicly traded companies in the food industry, listed below.

See footnote 4 to the Summary Compensation Table on page 25 for LTIP performance and the payout made in fiscal 2014.

Stock Incentives

Why Stock?

The LTIP also allows the Committee to grant different types of equity awards, including stock options, restricted stock and other stock-based awards. In general, the Committee uses stock options as the primary form of annual equity award. The Committee favors stock options because the option structure focuses executives on continued stock price improvement. Stock option grants typically vest equally over a four year period and have a term of ten years. This extended vesting period and term encourage executives to weigh how business decisions made in the near-term affect the Company’s long-term stock price performance.

The Compensation Committee also has built a safeguard into administration of the plan. Stock options are granted annually, effective as of the first Tuesday of December, except for stock option grants to the CEO. This practice ensures that option grant dates cannot be manipulated for a more favorable strike price. The Committee determined to make the

CEO's stock option grants effective the same date as the nonemployee directors' option grants, February 1. This date was chosen as it is a fixed date which falls shortly after conclusion of the annual CEO evaluation process. Options are always granted at the market price of the Company's stock at the date of grant. Options thus provide compensation to the optionee only to the extent the market price of the stock increases between the date of grant and the date the option is exercised. Options are intended to provide long-term compensation tied specifically to increases in the price of the Company's stock, thereby aligning the financial interests of executives and stockholders.

The Company's officers are expected to hold Company stock with a value equivalent to 1.5 to 5 times their five year average annual base salary, depending on position. See "Stock Ownership Guidelines" on page 8 for more information on the Company's stock ownership guidelines. Once officers achieve their stock ownership guidelines, there are no other stock holding requirements.

How Awards are Determined

The Compensation Committee determines, with the assistance of its outside consultant, the amount of options to be granted to executive officers, including the CEO. The CEO adds his input and recommendations regarding grants to executives (other than himself) and other eligible employees. The Committee reviews such recommendations and determines all final option grants to all eligible employees.

Option awards generally reflect the Compensation Committee's assessment of the influence an employee's position has on stockholder value. The number of options awarded may vary up or down from prior year awards based on the level of an individual executive officer's contribution to the Company in a particular year, determined in part on the recommendation of the CEO. The Committee's determination of option grants in fiscal 2014 and in past years took into consideration a number of factors. These factors include past grants to the individual, total compensation level (relative to other executives and relative to market data), contributions to the Company during the last completed fiscal year, potential for contributions in the future, and as a component of competitive total compensation based on market data.

Beginning in fiscal 2014, stock option grants were based on a desired dollar value rather than a discrete number of stock options. This was done to better manage the value of stock option grants and ultimately the percentage of total direct compensation delivered by stock options.

Clawback Policy

The Committee has adopted a "clawback" policy which provides for recoupment of incentive compensation in certain circumstances. If the Company restates its reported financial results for reasons other than a restatement required by a change in applicable accounting standards, the Board will review the bonus and other awards made to the executive officers based on financial results during the period subject to the restatement and, to the extent practicable under applicable law, the Company will seek to recover or cancel any such awards which were awarded as a result of achieving performance targets that would not have been met under the restated financial results.

Pension Plan

The Company maintains noncontributory defined benefit pension plans covering substantially all salaried employees. Pension benefits for salaried employees are based upon the employee's highest five years of compensation (as described below) of the last 10 calendar years of service and the employee's length of service.

The Salaried Employees Pension Plan ("**Pension Plan**") provides an annual pension benefit based on the base benefit and supplemental benefit. The base benefit is 0.95% of the average annual compensation multiplied by the years of benefit service, limited to 40 years, at retirement. The supplemental benefit is 0.65% of average annual compensation less covered compensation multiplied by the years of benefit service, limited to 35 years. Average annual compensation is the average of the highest five years of compensation of the last ten completed calendar years at retirement. For this purpose, annual compensation consists of base salary, Operators' Share Plan payments and Annual Incentive Plan payments. Covered compensation is derived from a published table based on year of birth that averages the maximum social security wage bases during the participant's working life.

The earliest eligible retirement age is 55 years, after completion of 15 years of service. The base benefit is discounted 0.5% for every month retirement occurs before age 62. However, an employee may retire with 30 years of service after attaining age 60 and avoid the discount on the base benefit. The supplemental benefit is multiplied by an adjustment factor which increases from 0.48 at age 55 to 1.00 at age 65.

The Pension Plan was amended in fiscal 2011 to change the benefit formula effective January 1, 2017. Pension benefits will continue to be based on average annual compensation and utilize covered compensation as a supplemental benefit. The base benefit will be an 8% or 10% credit for each year of service after January 1, 2017. If the sum of the employee age and years of service as of the beginning of the plan year is 75 or less, the employee receives an 8% base pay credit. If it is

greater than 75, the employee receives a 10% base pay credit. An annual supplemental credit of 4% for each year is included if average annual compensation is greater than covered compensation at termination of employment.

At termination of employment, the sum of the base pay annual credits is multiplied by the average annual compensation with the result being the base portion of the pension benefit. The sum of supplemental credits is multiplied by the result of the average annual compensation minus covered compensation with the result being the supplemental portion of the pension benefit. The pension benefit is payable in a lump sum or an annuity at the choice of the participant. The earliest retirement age and discount factors were not changed for current participants.

The match in the Company's Tax Deferred Investment Plan A - 401(k) ("401(k) Plan") covering these employees will increase effective October 31, 2016 in conjunction with this modification.

Supplemental Executive Retirement Plan

Why have a SERP?

The Hormel Supplemental Executive Retirement Plan ("SERP") provides an annual pension benefit to a select group of management, including all NEOs, based on the same pension formula as the Pension Plan. The SERP bases the benefit on compensation that is not allowable in the Pension Plan. Such compensation includes amounts over the qualified plan compensation limit, currently \$260,000, restricted stock awards, and deferrals to nonqualified deferred income plans. Rather than adding a different measure of value, the SERP merely restores the value executives lose under the Pension Plan (described above) due to government limitations.

Nonqualified Deferred Compensation Plan

Why have a NQDCP?

In the same way that the SERP eliminates the government-imposed limitations on the Pension Plan, the nonqualified deferred compensation plan, the Executive Deferred Income Plan ("NQDCP"), eliminates the government-imposed limitations on the 401(k) Plan. The Company's NQDCP permits eligible employees, including all NEOs, to annually defer certain compensation. This compensation includes base salary, Operators' Shares dividend equivalents and year-end payments, AIP payments, and long-term incentive payments. Effective October 31, 2016, the Company will make contributions on behalf of participants for 401(k) match amounts which could not be contributed to the 401(k) Plan because of government-imposed limitations. The Company also may make discretionary contributions to the participant's deferral accounts.

Deferrals of cash compensation are credited with deemed investment gains and losses. Similar to a 401(k) plan, the participant may choose from a number of investments, none of which provide above-market interest rates. Payments under the NQDCP are made on the date(s) selected by each participant in accordance with the terms of the plan or on such other date(s) as specified in the plan. Payments relating to deferrals of cash compensation are paid in cash.

In connection with the NQDCP, the Company has created a grantor trust, commonly known as a "rabbi trust." The Company is under no obligation to further fund this trust and would do so only at its discretion. The assets of the trust are intended to be used to pay benefits under the plan, but the assets of the trust are subject to the claims of general creditors of the Company.

The Compensation Committee believes that the SERP and the NQDCP together provide a competitive retirement package for executives that is consistent with the retirement benefits provided to all Company employees.

Survivor Income Protection Plan

Why have a SIPE?

The Hormel Survivor Income Plan for Executives ("SIPE") is provided in addition to the life insurance plan which is available to all salaried employees. As with the qualified pension plans, there are limits on the levels of insurance provided under the broad-based plan. The Company offers the SIPE to provide a death benefit commensurate with the income levels of the participants. The SIPE is available to a designated group of management employees, including all NEOs.

The SIPE pays a benefit to the employee's spouse or dependent child of 60% of average salary (based on a five-year average) for up to 20 years if the eligible employee died while actively employed. If the payment is made to a beneficiary instead of a spouse or dependent child, the maximum duration is five years (for participants joining the SIPE in 2000 or after) or 20 years (for participants joining the SIPE prior to 2000). If the eligible employee died after retirement, payment to the spouse or dependent child is 1% per year of service up to 40% of average salary for 15 years. If the payment is made to a beneficiary, not to a spouse or dependent child, the maximum duration is five years (for participants joining the SIPE in 2000 or after) or ten years (for participants joining the SIPE prior to 2000). The SIPE was amended in fiscal 2009 to discontinue the post-retirement benefit for new officers effective on or after October 26, 2009.

Perquisites

The Company provides limited perquisites to its executive officers. The Company maintains two corporate aircraft, but executive use of the aircraft is strictly limited to business purposes.

The Company maintains a condominium in Vail, Colorado. The condominium is made available to members of senior management as a vacation destination. The taxable value of the use of this property is charged as taxable income to the employee, in accordance with IRS regulations.

The Company provides cars to executive officers. Due to business travel needs, the Company has chosen to provide a Company car in lieu of paying mileage for the use of a personal vehicle. The annual taxable value of the vehicle is charged as taxable income to the employee, in accordance with IRS regulations.

The Company provides a designated group of managers, including executive officers, an annual medical physical. Assuring these key managers are in good health minimizes the chance business operations will be interrupted due to an unexpected health condition.

How Annual Compensation Decisions are Made

The Compensation Committee reviews and approves recommendations for pay changes for the CEO, each of his 9 direct reports and a group of 24 additional officers who hold key positions within the Company. Each year, the Committee asks its outside consultant to update the competitive analysis for each of these positions.

For the NEOs, the consultant develops “market consensus” data using both a peer group of companies similar to the Company in size and industry (listed below) and a combination of several compensation surveys. The use of peer group data (1) provides the Compensation Committee with more specific information regarding market practices than is available from surveys and (2) allows the Committee to compare the Company’s relative pay positioning in relation to the Company’s relative performance positioning to ensure a proper pay-for-performance alignment. The use of survey data (1) provides information based on specific position responsibilities rather than pay level and (2) provides pay information for positions that fall below the NEOs. The consultant works with the Company’s Vice President - Human Resources to ensure a proper understanding of the roles, responsibilities and revenue scope of each position reviewed.

Market Capitalization	\$11,513	\$4,057	\$9,112	\$14,740

The companies in this Pay and Performance Peer Group are different than the LTIP Peer Companies because the purpose of each list is different. The Pay and Performance Peer Group consists of food companies which are more similar in size to the Company. This makes them a better match to use for compensation comparison purposes. The LTIP Peer Companies are a broader group of food companies which are publicly traded, allowing for determination of total shareholder return. Since total shareholder return is not dependent on company size, a broader group of companies can be included. This broader group assures there will be a sufficient number of comparison companies at the end of the three-year LTIP performance cycle if some of the companies are eliminated by acquisition, bankruptcy, or similar events. Each year the Committee reviews the Pay and Performance Peer Group and the LTIP Peer Companies with input from the consultant and approves any changes.

Upon completing the competitive analysis, the consultant provides the Compensation Committee with a report of the relative pay and performance findings. Based on the results of this analysis, the Committee discusses strategic goals for the program and establishes broad parameters for annual pay decisions, including desired changes in overall pay mix. The consultant then works with the CEO and the Vice President of Human Resources to develop an initial set of recommendations for annual pay decisions, consistent with the guidelines established by the Committee. The consultant presents preliminary recommendations to the CEO and Vice President of Human Resources based on each executive’s market positioning and relative internal positioning. The CEO and Vice President of Human Resources then modify those

recommendations based on their assessment of each individual's performance and contribution. The initial results are then submitted to the Committee for review and discussion. Based on the Committee discussion, modifications are made to the initial recommendations and the Committee approves the final recommendations at a subsequent meeting. The CEO does not participate in the Committee's process for establishing the CEO's compensation.

For fiscal year 2014, the Compensation Committee approved salary increases and any changes to Operators' Shares grants, AIP award target amounts, LTIP award target amounts and stock option grants for the NEOs and other key executives. The resulting fiscal 2014 compensation levels for the NEOs are detailed in the Summary Compensation Table on page 25 and the supporting tables that follow. At target performance, each NEO's total direct compensation (total cash compensation plus long term compensation) will be between the 50th and 75th percentile of market consensus data.

The Compensation Committee considers the positioning of NEO compensation appropriate in light of the experience, expertise, responsibilities and performance of these five individuals.

Tax Deductibility

Compensation decisions for our executive officers are made with full consideration of the tax implications, including deductibility under Section 162(m) of the Internal Revenue Code. Section 162(m) limits the deductibility of compensation paid to certain executive officers in excess of \$1 million annually, but excludes "performance-based compensation" from this limit.

Our stockholders have approved the Company's Operators' Share Plan and LTIP for the purpose of permitting awards under those plans to qualify as performance-based compensation under Section 162(m). The Compensation Committee generally intends for compensation awarded under those plans to be deductible, except for dividend equivalents paid under the Operators' Share Plan. Such dividends may not be deductible in full for any NEO in a given year. The Compensation Committee reserves the right to make other compensation payments that do not qualify as performance-based compensation under Section 162(m) when the Compensation Committee determines it advisable to do so to properly incentivize our executive officers.

ANALYSIS OF RISK ASSOCIATED WITH OUR COMPENSATION PLANS

In making decisions regarding compensation program design and pay levels, our Compensation Committee and senior management consider many factors, including any potential risks to the Company and its stockholders. Although a significant portion of our executives' compensation is performance-based and "at-risk," we believe the Company's compensation plans are appropriately structured and are not reasonably likely to have a material adverse effect on the Company.

Senior management, with the oversight of the Committee, implements and administers the compensation program for all employees of the Company other than the executive group.

The Committee, with the assistance of its independent outside consultant, oversees all aspects of the executive compensation program including:

- Approval of the companies included in the peer group for comparison purposes;
- Review and approval of threshold, target and performance goals for short- and long-term incentives;
- Approval of all equity grants; and
- Approval of all pay actions for senior executives (currently 34 incumbents).

Specifically, the Committee notes the following design features that mitigate potential risk:

1. Our short-term variable pay consists of two programs that provide a strong balance of performance measures:
 - The Operators' Share Plan rewards absolute company-wide EPS performance. The plan ties all participants to the results of the total company and the award levels are not subject to budget "negotiations";
 - The AIP rewards the achievement of operating income and asset management relative to Committee-approved goals;
 - The inclusion of asset management discourages decisions designed to boost short-term results;
 - Including both company-wide and division measures creates a balance between focus on overall results and a tangible pay-for-performance relationship for division executives; and
 - The cap on annual payouts mitigates the risk of excessive rewards for temporary, unsustainable results.
2. Our long-term incentive structure consists of two programs that balance absolute and relative shareholder value creation over a multi-year period:
 - The LTIP performance awards program rewards relative total shareholder return over a three-year performance period;

- The relative nature of the measurement mitigates the risk of overpayment for absolute performance that lags industry expectations;
- The Stock Option grants vest over a four-year period and provide reward for the achievement of absolute stock price performance;
 - Multi-year vesting of options mitigates the risk that executives can reap excessive rewards from temporary stock price increases;
- In addition, executives (and directors) are subject to stock ownership guidelines, which require minimum stock holdings for the duration of the executives' employment; and
- Further, the multi-year nature of both plans also serves as a retention tool, mitigating the risk of unwanted executive turnover.

COMPENSATION OF NAMED EXECUTIVE OFFICERS (NEOs)

The following tables and narrative disclosure should be read in conjunction with the Compensation Discussion and Analysis, which presents the objectives of our executive compensation and benefit programs. The table below presents compensation for individuals who served as Chief Executive Officer and Chief Financial Officer and for the other three most highly compensated executive officers who were serving as executive officers at the end of fiscal 2014.

- (1) Includes amounts voluntarily deferred under the Company's Tax Deferred Investment Plan A - 401(k) and the Executive Deferred Income Plan.
- (2) Consists of a discretionary bonus that was paid, in the same amount, to all other eligible employees.
- (3) Consists of the aggregate grant date fair value of stock options granted during the fiscal year, calculated in accordance with FASB ASC Topic 718. The grant date fair value is based on the Black-Scholes valuation model. Assumptions used to calculate these amounts are included in Note A, "Summary of Significant Accounting Policies – Employee Stock Options," and Note L, "Stock-Based Compensation," of the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended October 26, 2014.
- (4) Consists of Operators' Share Incentive Compensation Plan and Annual Incentive Plan payments earned during the fiscal year, the majority of which were paid subsequent to fiscal year end, and payouts under the LTIP performance awards, as shown in the table below. For the LTIP performance period June 10, 2011 through June 19, 2014, the Company's Total Shareholder Return was at the 73.3 percentile, resulting in a payout at 146.7% of the target awards. Includes amounts voluntarily deferred under the Executive Deferred Income Plan.

- (5) Consists of the annual increase in the actuarial present value of accumulated benefits under the Pension Plan and the SERP. In fiscal 2013, the annual change in the actuarial present value of accumulated benefits under the Pension Plan and the SERP was a negative amount for Mr. Ettinger (-\$444,999) and Mr. Binder (-\$152,212). In accordance with SEC rules, the present value was determined using the same assumptions applicable for valuing pension benefits for purposes of our financial statements. See "Pension Benefits" on page 29. The NEOs had no above-market or preferential earnings on deferred compensation.
- (6) All other compensation, including perquisites and other personal benefits, consists of the following:

- (a) Consists of Joint Earnings Profit Sharing distributions for each fiscal year that were authorized and paid subsequent to fiscal year end. Company Joint Earnings Profit Sharing distributions may be authorized by the Board of Directors in its discretion based on Company profits. The total amount of Company distributions declared available to all participants by the Board is allocated in the same proportion as each person's base weekly wage bears to the total base wage for all eligible persons. Distributions to the NEOs are calculated using the same formula as is used for all eligible employees. Distributions to the NEOs include both a contribution to the Joint Earnings Profit Sharing Trust and a Joint Earnings profit sharing cash payment.
- (b) Consists of Company matching payments under the Hormel Tax Deferred Investment Plan A - 401(k). This matching payment, in the same amount, is available to all other eligible employees.
- (c) Consists of the aggregate incremental cost to the Company of a vehicle provided to the NEO for business and personal use. This cost includes the depreciation expense of the vehicle and insurance, license, fuel and maintenance costs.
- (d) Consists of the aggregate incremental cost to the Company of use of a Company-owned condominium in Vail, Colorado. This cost is the total costs of the property allocated between the two units in the condominium and then divided by the number of weeks the units are available for use. Costs of the property include property management, insurance, utilities, remodeling, repairs and property taxes.

- (e) Consists of reimbursements paid by the Company for air travel lounge membership expenditures. Such expenditures are allocated evenly over the term of the membership.
- (f) Consists of costs of physical medical examinations paid for by the Company.

- (1) The “Operators’ Shares” column discloses the number of Operators’ Shares granted to each NEO for fiscal 2014. The “target” column shows the estimated possible Operators’ Share payment for fiscal 2014 based on fiscal 2013 EPS of \$1.95. In accordance with SEC rules, this estimated possible payment is based on the previous fiscal year’s performance since the fiscal 2014 EPS results are not determinable when the award is made at the beginning of fiscal 2014. The actual Operators’ Share payment earned in fiscal 2014 for each NEO based on fiscal 2014 EPS of \$2.23 was paid subsequent to fiscal year end and is included under “Non-Equity Plan Incentive Compensation” in the Summary Compensation Table on page 25. See “Operators’ Share Incentive Compensation Plan” on page 17 for a description of Operators’ Shares.
- (2) Consists of AIP performance awards granted in fiscal 2014. These awards include target amounts and are subject to threshold and maximum payouts under the AIP. The actual AIP payment earned in fiscal 2014 for each NEO was paid subsequent to fiscal year end and is included under “Non-Equity Plan Incentive Compensation” in the Summary Compensation Table on page 25. See “Annual Incentive Plan” on page 17 for a description of the AIP and AIP payouts for fiscal 2014.
- (3) Consists of stock options granted under the Company’s 2009 Long-Term Incentive Plan. These options vest at 25% per year on the anniversary of the grant date. The grant date fair value is included under “Option Awards” in the Summary Compensation Table on page 25. See “Potential Payments Upon Termination” on page 31 for a discussion of how equity awards are treated under various termination scenarios.
- (4) Consists of LTIP performance awards made in fiscal 2014. The performance period is June 6, 2014 through the 20th trading day after the Company’s second fiscal quarter 2017 earnings release, ending June 30, 2017 at the latest. The actual cash amounts payable at the end of the performance period under these LTIP performance awards, if any, cannot be determined because the amount earned will be based on the Company’s future performance and the future performance of the peer group. See “Long-Term Incentives” on page 20 for a description of the LTIP awards and potential payouts for LTIP awards.

The following table summarizes the total outstanding equity awards as of October 26, 2014 for each of the NEOs.

(1) Stock option grants generally vest in four equal annual installments, starting with one-fourth of the grant vesting on the first anniversary of the grant date. The stock options have a term of ten years. The grant date is thus ten years prior to the option expiration date shown in this table. Specific vesting dates are listed in footnote 2 below.

See Potential Payments Upon Termination on page 31 for a discussion of how equity awards are treated under various termination scenarios.

- (2) The table below shows the vesting schedule for all unexercisable options. These options vest on the anniversary of the grant date in the year indicated. For example, the December 3, 2013 option grant for Mr. Binder vested as to 19,600 shares on December 3, 2014 and will vest as to 19,600 shares on each of December 3, 2015, December 3, 2016 and December 3, 2017.

- (1) Mr. Ettinger, Mr. Binder and Mr. Day are eligible for early retirement under both the Pension Plan and the SERP. Early retirement provisions of these plans are described under “Pension Plan” on page 21 and “Supplemental Executive Retirement Plan” on page 22.

In accordance with SEC rules, the present value of accumulated benefits that NEOs are entitled to under these plans was determined using the same assumptions applicable for valuing pension benefits for purposes of our financial statements. See Note I, “Pension and Other Post-retirement Benefits,” of the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended October 26, 2014. The material terms of these plans are described under “Pension Plan” on page 21 and “Supplemental Executive Retirement Plan” on page 22.

The following table shows information about each NEO’s participation in the Company’s Executive Deferred Income Plan.

POTENTIAL PAYMENTS UPON TERMINATION

Our executive officers do not have employment or severance agreements with the Company. Consequently, no executive officer has any right to cash severance of any kind.

Our stock option awards include standard provisions that result in the vesting or forfeiture of awards upon termination of employment, depending on the reason for termination. These provisions are summarized as follows:

- All options vest immediately upon death or disability of the executive;
- Retirement results in the continued vesting of options per the original vesting schedule;
- Voluntary termination of employment results in the continued vesting of options per the original vesting schedule, but all options expire three months after such termination;

- Upon a change in capital structure of the Company, including a change in control of the Company via a merger, a sale of assets, or a tender or exchange offer, the Compensation Committee may in its discretion take action which the Committee deems appropriate, including accelerating vesting of options or permitting the exchange of options for a cash payment or substitute options; and
- Options are forfeited immediately upon termination for cause or breach of a confidentiality or noncompete agreement, both as determined by the Compensation Committee. All NEOs have signed a confidentiality agreement. Of the NEOs, Ms. Feragen and Mr. Leitch have signed a noncompete agreement which prohibits them from working on competing products for a competitor of the Company for one year following termination of employment.

Our LTIP performance award agreements include standard provisions that result in the vesting or forfeiture of awards upon termination of employment, depending on the reason for termination. These provisions are summarized as follows:

- Death results in calculation of an award as if the performance period ended on the date of death and payment to the employee's beneficiary of a prorated amount based on the employee's actual period of employment during the performance period;
- Change in control of the Company results in calculation of an award as if the performance period ended on the date change in control occurred and payment to the employee of that award without proration;
- Retirement or disability results in a payment after the end of the performance period equal to the amount that would have been earned over the entire performance period prorated based on the employee's actual period of employment; and
- Termination of employment for any reason other than retirement, disability or death results in forfeiture of all award rights.

The following table shows the potential payment of LTIP performance awards and the potential value of unexercisable stock option awards for the NEOs upon death, retirement, disability, or change in control of the Company as of October 26, 2014.

- (1) Stock options are valued based on the difference between the \$52.54 closing price of the Company's stock on October 24, 2014, the last trading day of the fiscal year, and the applicable exercise price of the stock options. Amounts shown for stock options represent the value of all unexercisable options. Exercisable options would not be affected by this termination event.
- (2) Payments for LTIP performance awards upon death or change in control of the Company are based on actual Company performance through October 26, 2014. Such awards upon death are prorated based on employment from the beginning of the performance period through October 26, 2014.
- (3) Retirement or disability results in a payment for LTIP performance awards after the end of the performance period equal to the amount that would have been earned over the entire performance period prorated based on the employee's actual period of employment. These columns thus show the potential threshold, target and maximum payments for such awards, each prorated based on employment from the beginning of the performance period through October 26, 2014. The actual payment would not be determined until after the performance period end date for each award.
- (4) For this table, it is assumed that the Compensation Committee exercised its discretion to accelerate vesting of all options upon a change in control of the Company. Alternative assumptions which provide the same result are that the Committee exercised its discretion to permit the exchange of options for a cash payment or substitute options, in either case with a value equal to the difference between the closing price of the Company's stock on October 26, 2014 (the last trading day of the fiscal year) and the applicable exercise price of the stock options.

Following termination of employment for any reason, our executive officers receive payment of retirement benefits and nonqualified deferred compensation benefits under the plans in which they participate. The value of those benefits are set forth in the sections above entitled "Pension Benefits" and "Nonqualified Deferred Compensation."

Upon termination of employment caused by the death of an executive officer, the SIPE would provide a death benefit to the executive's survivors. The value of those benefits is described under "Survivor Income Protection Plan" on page 22.

ITEM 3 – ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Company is providing stockholders an advisory vote on executive compensation as required by Section 14A of the Exchange Act and related SEC rules. This advisory vote is commonly known as a "say-on-pay" vote.

The advisory vote on executive compensation is a non-binding vote on the compensation of the Company's Named Executive Officers, as disclosed pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis, compensation tables and narrative discussion set forth in this proxy statement. The advisory vote on executive compensation is not a vote on the Company's general compensation policies, compensation of the Company's Board of Directors, or the Company's compensation policies as they relate to risk management, as described under "Analysis of Risk Associated With Our Compensation Plans" on page 24.

The Company's executive compensation programs are designed to attract, motivate and retain highly qualified executive officers who are able to achieve corporate objectives and create stockholder value. The Compensation Committee believes the Company's executive compensation programs reflect a strong pay-for-performance philosophy and are well aligned with the stockholders' long-term interests. The Compensation Discussion and Analysis section starting on page 16 provides a more detailed discussion of the executive compensation programs.

The Compensation Committee believes the Company's executive compensation programs have been effective at incenting the achievement of strong financial performance and superior long-term returns to stockholders. Fiscal 2014 net earnings were a record \$603 million, with \$2.23 diluted EPS, up 14% from \$1.95 diluted EPS a year earlier. Net sales for fiscal 2014 exceeded the \$9 billion mark for the first time and totaled \$9.3 billion, up 6% from the prior year. This fiscal 2014 record performance followed successive net earnings and sales records each year in fiscal 2010 through 2013. Our annual report to stockholders provides more details on the Company's financial performance.

This financial performance has led to superior long-term returns to the Company's stockholders. The chart below shows how the Company's stock outperformed each of the Dow Jones Industrial Average, Standard & Poor's 500 Index and

Standard & Poor's 500 Packaged Foods and Meat Index in total return for the one, two, three, five and ten-year periods ending October 24, 2014, the last trading day in fiscal 2014.

Ending 10/24/2014	1-Year	2-Year	3-Year	5-Year	10-Year
Hormel Foods	20.4%	33.4%	21.3%	23.7%	14.2%
Dow Jones Industrial Average	7.9%	13.3%	12.0%	11.0%	5.3%

S&P 500 Packaged Foods and Meats	9.4%	19.2%	17.0%	17.2%	9.6%

In November 2014, the Company announced a \$.20 per share (25%) increase to its annual dividend rate, making the new dividend \$1.00 per share. This represents the 49th consecutive annual dividend increase and marked the sixth consecutive year the annual dividend increase exceeded ten percent.

Stockholders are being asked to vote on the following resolution:

RESOLVED, that the stockholders of Hormel Foods Corporation approve, on an advisory basis, the compensation of the Company's Named Executive Officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, compensation tables and narrative discussion set forth in the Company's 2015 annual meeting proxy statement.

This advisory vote on executive compensation is not binding on the Company's Board of Directors. However, the Board of Directors will take into account the result of the vote when determining future executive compensation arrangements.

While the stockholder vote on this proposal is non-binding, the Board of Directors will consider stockholders to have approved the resolution if the number of shares voted for it exceeds the number of shares voted against it. **The Board of Directors recommends a vote FOR adoption of the resolution approving the compensation of the Company's NEOs as disclosed in this proxy statement. Properly dated and signed proxies will be so voted unless stockholders specify otherwise.**

RELATED PARTY TRANSACTIONS

The Board of Directors has adopted a written related party transaction policy. This policy applies to all transactions that qualify for disclosure under Item 404(a) of Regulation S-K of the Exchange Act. Information about transactions involving related persons is reviewed by the Audit Committee. Related persons include Company directors and executive officers, as well as their immediate family members. If a related person has a direct or indirect material interest in any Company transaction, then the Audit Committee would decide whether or not to approve or ratify the transaction. The Audit Committee will use any process and review any information that it determines is appropriate. All related party transactions will be disclosed in accordance with SEC rules. For fiscal 2014, the Company had no material related party transactions which were required to be disclosed in accordance with SEC rules.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

The Company's directors, executive officers, and any persons holding more than ten percent of the Company's common stock are required to report their initial ownership of the Company's common stock and any subsequent changes in that ownership to the SEC and the NYSE. This requirement is contained in Section 16(a) of the Exchange Act. Specific due dates for these reports have been established. The Company is required to disclose in this proxy statement any failure to file by those dates during fiscal 2014.

In making this disclosure, the Company has relied on the representations of its directors and officers and copies of the reports that they have filed with the SEC. Based on those representations and reports, the Company believes that all Section 16(a) filing requirements applicable to the Company's directors, officers and greater than ten percent stockholders were met, with one exception. Due to administrative oversight, Dr. Elsa Murano filed one late Form 4 reporting a sale of stock.

ITEM 4 – STOCKHOLDER PROPOSAL

Stockholder Proposal

The Humane Society of the United States, 2100 L Street, NW, Washington, DC 20037, beneficial owner of at least \$2,000 in market value of the Company's common stock, and Calvert Investments, Inc., 4550 Montgomery Avenue, Bethesda, MD 20814, beneficial owner of 2,741 shares of the Company's common stock, as the sponsors, have notified the Company that they intend to present the following resolution at the Annual Meeting of Stockholders. As required by the rules of the SEC, the resolution and supporting statement are reprinted here as they were submitted to the Company:

“**RESOLVED**, that shareholders request that the Board of Directors disclose the financial and operational risks to which Hormel’s indefinite allowance of pig gestation confinement crates throughout its supply system may be exposing the company. The disclosure should be made within six months of the 2015 annual meeting at a reasonable cost and omit proprietary information.

CONTACT: HormelProposal@gmail.com

SUPPORTING STATEMENT:

This proposal seeks increased transparency—to help shareholders better understand Hormel’s ability to meet changing marketplace demands and remain on-par with its competitors.

Over 60 of the world’s largest food retailers (McDonald’s, Costco, Kroger, Oscar Mayer and dozens more) have announced policies to eliminate from their supply chains pork produced using gestation crates—small cages that confine animals so restrictively they’re unable even to turn around.

Institutional Shareholder Services (ISS), *which recently supported a shareholder proposal similar to this one*, notes that “If gestation crates are not part of the lingua franca of most investors, long term risk certainly is.” Similarly, GlassLewis found that “Gestation crates could place companies at a financial disadvantage from an operational perspective.”

To its credit, in 2012, Hormel announced that it will replace gestation crates in company-owned pig breeding operations with systems that house sows in open groups. As the company notes, “As of 2013, we have successfully converted 25 percent to group sow housing [for company-owned facilities].”

However, while Hormel is eliminating gestation crates from the few pig breeding operations it owns, it has disclosed no plans for moving the other pig breeding operations throughout its supply system away from gestation crates. This loophole may preclude Hormel from meeting the procurement policies set by the dozens of food retailers with gestation crate pork prohibitions, and thus presents shareholder risk.

As well, Hormel is out-of-step with several top competitors:

- Smithfield, for example, has disclosed timelines for moving its entire supply system (company-owned and contracted) away from gestation crates.
- Tyson has advised the contract farmers in its system that “future sow housing” should allow animals to turn around and engage in other behaviors precluded by gestation crates.
- Cargill recently announced that it will eliminate gestation crates at its company-owned and contractor-owned operations by 2015 and 2017 (respectively). As Cargill stated in making that announcement, “If you want to be a viable supplier, you respond to the signals your customers send.”

Yet Hormel has made no meaningful disclosures regarding the risks its indefinite allowance of gestation crates throughout its supply system may present to the company and its shareholders.

Therefore, shareholders are encouraged to vote **FOR** this proposal, which seeks disclosure around risks to which Hormel may be exposing its investors. Shareholders deserve to understand the risks that may endanger them as a result of Hormel’s policies on this issue; this proposal would help provide such transparency. Thank you.”

Board of Directors Statement in Opposition to the Stockholder Proposal

The Company treats animal welfare as a top priority and has implemented a number of practices to ensure animal welfare standards are followed. The Board of Directors believes that the proposal is unnecessary, as the information below provides stockholders with the material information about the Company’s position on sow housing. Devoting resources for additional disclosure would be inefficient and not in the best interests of the Company’s stockholders.

The Company recognizes and monitors the differing views on the sow housing issue. For example, the American Veterinary Medical Association has reviewed the existing scientific literature on gestational sow housing and has published a report concluding that individual and group housing types both have advantages and disadvantages. However, in recognition of the expectations of some of the Company’s customers and consumers, the Company recently asked its hog suppliers who are renovating, planning or building new sow housing, to consider incorporating group sow housing into those design considerations. As the proponent noted, the Company previously announced that it would transition all company-owned farms to group sow housing by 2018, and that 25% have been successfully converted as of 2013. The Company believes that its actions on this issue are generally consistent with the practices of most other U.S. pork processors.

While the Company does not dictate systems its independent hog producers use to operate their farms, they must be compliant with the animal care standards in the Company's Quality Assurance Program. In addition, all independent family farms that supply hogs to the Company must be certified by the National Pork Board's Pork Quality Assurance Plus program. The National Pork Board consists of 15 pork producers or importers nominated by Pork Act Delegates at the National Pork Forum and appointed by the U.S. Secretary of Agriculture and implements programs designed to enhance the marketing of U.S. pork products.

In sum, the stockholder proposal is not necessary because the Company continually assesses risks related to all aspects of its business and discloses any risks that could materially adversely affect the Company's business, financial condition or results of operations. The Board of Directors believes the Company's stockholders will be better served by having the Company continue its efforts to employ industry best practices and stay apprised of leading research in order to make informed decisions regarding animal welfare, including sow housing.

Vote Required; Board Recommendation

Adoption of the proposal will require the affirmative vote of holders of a majority of the shares of common stock entitled to vote and represented in person or by proxy at the meeting. **The Board of Directors recommends that you vote AGAINST this proposal. Properly dated and signed proxies will be so voted unless stockholders specify otherwise.**

VIEWING AND DELIVERY OF PROXY MATERIALS

Viewing of Proxy Materials Via the Internet - We are able to distribute our annual report and this proxy statement to our stockholders in a fast and efficient manner via the Internet. This reduces the amount of paper delivered to a stockholder's address and eliminates the cost of sending these documents by mail. Stockholders may elect to view all future annual reports and proxy statements on the Internet instead of receiving them by mail. You may make this election when voting your proxy this year. Simply follow the instructions to vote via the Internet or go directly to www.proxyvote.com/hrl to register your consent. You will continue to have the option to vote your shares by mail, telephone or the Internet.

Delivery of Proxy Materials - Only one Notice of Internet Availability of Proxy Materials or only one copy of our annual report and proxy statement are being delivered to multiple stockholders sharing an address, unless the Company received contrary instructions from one of the stockholders. If you wish to receive a separate copy of the Notice of Internet Availability of Proxy Materials or the annual report and proxy statement, as applicable, this year or in future years, please call 507-437-5944 or mail a request to Brian D. Johnson, Vice President and Corporate Secretary, 1 Hormel Place, Austin, Minnesota 55912.

STOCKHOLDER PROPOSALS FOR 2016 ANNUAL MEETING OF STOCKHOLDERS

Any stockholder intending to present a proposal at the 2016 Annual Meeting of Stockholders must deliver the proposal to the Company by August 19, 2015, in order to have the proposal considered for inclusion in the Company's proxy statement and the form of proxy for that meeting.

The Company's Bylaws provide certain requirements which must be met in order for a stockholder to bring any proposals or nominations for election as Directors for consideration at the Annual Meeting of Stockholders. These requirements apply whether or not the proposal or nomination is requested to be included in the proxy statement and proxy. The requirements include a written notice to the Corporate Secretary to be received at the Company's principal executive offices at least 90 days before the date that is one year after the prior year's annual meeting. For business or nominations intended to be brought to the 2016 Annual Meeting of Stockholders, the notice deadline is October 29, 2015. Stockholder proposals or director nominations submitted after this date may not be presented at the 2016 Annual Meeting of Stockholders.

OTHER MATTERS

The management of the Company does not know of any matters to be presented at the meeting other than those identified above. If other matters properly come before the meeting, the holders of the proxies will vote on such matters in their discretion under the authority granted in the proxy.

By Order of the Board of Directors
